

This is an anonymous survey. We hope to learn how often youth are usually moving and how youth feel about changing placements. Only fill it out if you want to! Also, feel free to skip any question.

1. When was the last time you changed placements*?
*Placement could be a group home, residential placement, or foster home

2. The last time you changed placements, how soon did someone tell you that you were moving before it actually happened?

3. Do you think your current placement is better or worse than the one before?

4. How many times do you remember changing placements? How many times have you changed placement in the last year?

5. The last time you changed placements, did you stay in the same town or move to a new one?

6. How many times have you gone to respite in the last year? What's one word you would use to describe your most recent respite?
